

Correx SP TLSO

DCT-0464 The Trend Correx SP TLSO is a thoracolumbosacral orthosis with a sternal pad that immobilizes and restricts mid and lower spine movement (T9- S1). A lightweight and highly supportive frame equipped with our Trend TX2 Breathe Thru Mesh Belt and Trend TX2 Moisture Wicking Lining increases wearability and patient compliance.

Guided Postural Reeducation

The Trend Correx TLSO safely assists a prolonged low load therapeutic stretch to increase spinal flexibility

Highlights • Clinically tested to provide immobilization and motion restriction • Patent-pending dual pulley system telescopes the thoracic core independently from the lumbar brace; this revolutionary mechanism secures a neutral spine alignment, and an increased low load assisted thoracic stretch • Removeable sternal pad

Indications • Conditions

requiring gross immobilization of the thoracic and lumbar spine • Post-surgical immobilization • Kyphosis • Spinal stenosis • Herniated Disc • Degenerative spinal fractures

Superior Post-Operative Support

Limits forward movement during the healing period to optimize recovery

PDAC Approved: L0464
