

Pro Series LSO 31

DCT-31 The Trend Pro LSO is a technically advanced lumbar-sacral orthosis that stabilizes the mid to lower spine (T9- S1), providing optimal tri-planar support and protection. The Trend Pro LSO's clinically advantageous design self-adjusts to each patient's unique Lordotic curve, making it a superior option for relieving pain and discomfort.

Revolutionary 6:1 Pulley System

Yields unmatched core compression compared to the industry-standard

Highlights • Clinically tested to provide motion restriction for pre-, post-, and non-operative patients

- Lightweight, low profile design featuring Trend TX2 Breathe Thru Mesh Belt and Trend TX2 Moisture Wicking Lining
- Posterior and anterior panels can be removed, molded, trimmed, or bent to provide a custom fit to meet unique anatomical and medical needs

Indications • Acute and Chronic Lower Back Pain • Lower Back Sprains/ Strains • Pre-, Post-, and Non- Operative Support • Lumbar Disc Displacement • Spinal Stenosis • Herniated Discs • Degenerative Spinal Pathologies • Stable, non-displaced spinal fractures (L1-L5)

Optimal Intracavitary Compression

Clinically tested to provide intracavitary compression for effective pain relief

PDAC Approved: L0631/L0648
